-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Status of the application

1. Applicants' response to restriction requirement and arguments filed on 9/25/08 is acknowledged. The previous restriction has been withdrawn and a new following lack of unity has been made in view of different interpretation of the previously applied restriction and provides an explanation for the lack of unity.

Lack of Unity

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 21-22 and 24-38, drawn to a process for a process for producing a fluorinated and silylated derivative, comprising the step of reacting a derivative of formula (I), Rf-Y-O-D with a base, where Y is a carbonyl group;

Group II, claim(s) 21 and 23-38, drawn to a process for a process for producing a fluorinated and silylated derivative, comprising the step of reacting a derivative of formula (I), Rf-Y-O-D with a base, where Y is an aminoalkylene group;

Group III, claim 39, drawn to a reagent composed for a weak base and a compound of formula (I).

3. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or

Art Unit: 1621

corresponding special technical features for the following reasons: The reactant in the group I has a carbonyl group in the formula (I), whereas group II has an aminoalkylene group in the formula (I). Both are patentably distinct compounds. Group III claims are drawn to a reagent, which is different from the process claims of group I and II. Each of the above groups is belongs to a divergent subject matter, and there is no common technical feature to combine the groups, and hence the restriction is proper.

4. A telephone call was made to Shruti Costales on 16th Dec 2008 to request an oral election to the above restriction requirement, but did not result in an election being made.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sudhakar Katakam whose telephone number is 571-272-9929. The examiner can normally be reached on M-F 8:30 AM - 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Daniel Sullivan can be reached on 571-272-0779. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
